

currenza **d²**®

diverts threefold at high speed

NRI
A Crane Co. Company

Useful accessory which can be adapted easily to G-13.mft and G-40.FT coin validators for applications, which require high speed sorting.

Easy control via maxi hub and Payment Manager is possible.

Enhanced security by control of coin pathes via infrared light barriers.

Advantages at a glance:

- High speed
- 3-way sorting
- Increased security by monitoring of flaps and coin inlet/outlet area

Technical data

Coin handling:	up to a diameter of 33.0 mm up to a thickness of 3.3 mm
Power supply:	10 to 16 Volts D.C.
Height:	77.0 mm
Width:	57.0 mm
Depth:	62.0 mm
Temperature range:	0 up to 55 °C
Rel. humidity:	15 to 93 %
Condensation:	not permitted
