

ADVANCING YOUR FIELD BASE PERFORMANCE

mei | PPM Advance

MEI PPM Advance (portable programming module) gives you complete control of your games, regardless if you are an equipment manufacturer or a major operator. It provides enhanced features that you can configure and control to meet your unique support needs. The next generation, which features a display screen and Bluetooth connectivity, will make the PPM Advance a more powerful tool—further lowering cost of ownership associated with MEI products.

Benefits for you as an original equipment manufacturer:

- Minimize inventory by profiling standard units
- Fast downloads for an “in-line” manufacturing process

Benefits for you as an operator:

- Fast and easy updates in your MEI field base for
 - currency data
 - configuration data
 - software
- Monitor performance of your MEI units*
- Advance functionality with Bluetooth capability

Please contact your MEI sales associate to learn how MEI PPM Advance can be implemented into your overall system and into your operation's profitability.
